INTRODUCTION

This survey seeks to collect information about the community's perception and actions regarding the environment. Below are the questions, the results, and the graphs of the 11 responses obtained.

This is a small example of a graph about the answers to the questions that were in the survey, taking into account that the orange color was the most selected where they made the age known in that question, and the least selected was the green color. And in this way, the graphs were determining each response graphically.

Below, we will provide a record of the questions and answers with the results shown graphically.

1. What is your average age?

- **Question:** Identify the age range of the participants.
 - **Results:**
 - **10–15 years: 36.4%**
 - **20–30 years: 27.3%**
 - **30–50 years: 27.3%**
 - **Over 70 years: 9.1%**
 - **Graph:** [Pie chart with four segments corresponding to the age ranges].
-

2. How do you consider the current state of the environment in your community?

- **Question:** Evaluate the general perception of the environment.
 - **Results:**
 - **Very good: 18.2%**
 - **Good: 63.6%**
 - **Fair: 18.2%**
 - **Bad: 0%**
 - **Very bad: 0%**
 - **Graph:** [Pie chart with five segments showing the perception of the environment].
-

3. What is the main environmental problem affecting your community?

- **Question:** Identify the most relevant environmental problem.
 - **Results:**
 - **Water pollution: 36.4%**
 - **Air pollution: 27.3%**
 - **Soil pollution: 9.1%**
 - **Deforestation: 9.1%**
 - **Other: 18.2%**
 - **Graph:** [Pie chart with five segments of environmental problems].
-

4. How often do you observe practices that harm the environment?

- **Question:** Measure the frequency of observing environmental damage.
 - **Results:**
 - **Always: 27.3%**
 - **Frequently: 45.5%**
 - **Sometimes: 18.2%**
 - **Rarely: 9.1%**
 - **Never: 0%**
 - **Graph:** [Pie chart with five segments of frequency].
-

5. How would you rate waste management in your community?

- **Question:** Evaluate waste management.
 - **Results:**
 - **Very adequate: 9.1%**
 - **Adequate: 18.2%**
 - **Fair: 63.6%**
 - **Inadequate: 9.1%**
 - **Very inadequate: 0%**
 - **Graph:** [Pie chart with five segments of rating].
-

6. Are there enough green areas or natural spaces?

- **Question:** Determine the availability of green areas.
 - **Results:**
 - **Yes, enough: 18.2%**
 - **Some, but not enough: 45.5%**
 - **Very few: 18.2%**
 - **None: 18.2%**
 - **Graph:** [Pie chart with four segments of green areas].
-

7. How responsible do you consider the population regarding environmental care?

- **Question:** Evaluate the perceived responsibility of the population.
 - **Results:**
 - **Very responsible: 18.2%**
 - Responsible: 45.5%**
 - **Not very responsible: 36.4%**
 - **Not responsible at all: 0%**
 - **Graph:** [Pie chart with four segments of responsibility].
-

8. What actions do you take to care for the environment?

- **Question:** Identify individual environmental actions.
 - **Results:**
 - **Save water and energy: 45.5%**
 - **Separate trash: 27.3%**
 - **Reduce the use of plastics: 18.2%**
 - **Participate in environmental campaigns: 9.1%**
 - **None: 0%**
 - **Graph:** [Pie chart with five segments of actions].
-

9. What actions would help the most to improve the environment in your community?

- **Question:** Determine priority actions to improve the environment.
 - **Results:**
 - **Environmental education: 81.8%**
 - **More trash cans and recycling centers: 18.2%**
 - **Graph:** [Pie chart with two segments of priority actions].
-

10. Who should take greater responsibility in caring for the environment?

- **Question:** Identify who is responsible for environmental care.
- **Results:**

- **Everyone: 36.4%**
 - **Schools: 27.3**
 - **Authorities: 18.2%**
 - **Citizens: 9.1%**
 - **Companies: 9.1%**
 - **Graph: [Pie chart with five segments of responsibility].**
-

11. Would you be willing to participate in a community environmental project?

- **Question: Measure willingness to participate in environmental projects.**
 - **Results:**
 - **Yes: 81.8%**
 - **Maybe: 18.2%**
 - **No: 0%**
 - **Graph: [Pie chart with three segments of willingness].**
-

12. What space would you like in your community?

- **Question: Identify preferences about community spaces.**
- **Results:**
 - **It will improve the name of the space: 63.6%**
 - **Why what?: 36.4%**
- **Graph: [Pie chart with two segments of preferences].**
-

CONCLUSIÓN

In conclusion, the survey reveals that most respondents consider that the current state of the environment in their community is good, but waste management is fair. Environmental education and community participation are key to improving the environment.
